## **Description**

### **Let's Talk About Emunah... Together!**

#### **A Book Designed to Get Children, Parents, and Teachers Speaking to Each Other About Emunah!**

With more than 200,000 copies of the series in print in many languages, Living Emunah has enriched and transformed countless lives - of adults, teenagers, and children. Now, we can take its messages and use them as a springboard for fascinating discussions with our children and students.

*Let's Talk Living Emunah* is not made to be read alone. It is for the parent, grandparent or older sibling to read with the children, for the educator to read with the class.

The short and engaging stories, adapted from the bestselling *Living Emunah* series by Rabbi David Ashear, include "Let's Talk About It," "Think a Little Deeper" and "It Happened to Me" sidebars, encouraging children to speak about the many aspects of emunah and incorporate them into their own lives.

Together, children and adults will explore the wonders of Hashem's world and His hashgachah pratis. They will learn to thank Hashem for all the good in their lives, and see how everything works out for the best. And while they are strengthening their emunah -- they will also be talking to each other, strengthening their relationships at the very same time.

At your Shabbos table, in the classroom, or whenever you want to have a conversation with a youngster that is both meaningful and fun -- open the pages of this unique book and get ready to start talking, and living, emunah!
