The Rambam's tombstone states: "From Moshe to Moshe, there was no one like Moshe ." Moshe Rabeinu gave the Jewish people the Torah. Moshe Ben Maimon, the Rambam, wrote the Mishneh Torah to serve as "a compilation of the entire Oral Law, including the ordinances, customs, and decrees that were enacted from the time of Moses, our teacher, until the completion of the Talmud," so that "a person will not need another text at all with regard to any Jewish law." This monumental work enables “a person to first study the Written Law, and then study this text and comprehend the entire Oral Law from it.”

The English edition of the Mishneh Torah, translated by Rabbi Eliyahu Touger,is a free-flowing, yet scholarly, translation of the Mishneh Torah. It is a Sefer that anyone can learn from, and deserves a place in everyone’s home.

The Rambam's tombstone states: "From Moses to Moses, there was no one like Moses." Moses gave the Jews the Torah, the Five books of the Written Law. Moses ben Maimon, the Rambam (1135-1204), wrote the Mishneh Torah to serve as "a compilation of the entire Oral Law, including the ordinances, customs, and decrees that were enacted from the time of Moses, our teacher, until the completion of the Talmud," so that "a person will not need another text at all with regard to any Jewish law." Rather, "a person should first study the Written Law, and then study this text and comprehend the entire Oral Law from it, without having to study any other text between the two."

This great classic is now accessible to an English reader in a free-flowing, but scholarly translation with a vowelized Hebrew text (menukad). It includes a concentrated, yet inclusive commentary that presents a digest of the centuries of Torah scholarship which have been devoted to the study of the Mishneh Torah.
